COMPLETE BED SIDES -

- MAR-K™ makes quality reproduction bed sides for 34-87 GM Stepsides and 51-72 Ford Flareside pickups.
- We use 16 gage electro-galvanized steel to form the bed sides.
- MAR-K™ bed sides made in Oklahoma City, USA!
- A complete GM bed side is made up of the bed side panel, the front and rear stake pockets, and the steel angle strip.
- A complete Ford bed side is made up of the bed side panel, the front and rear stake pockets and front and back extension panels.
- Sides are ready to clean, prime, paint and bolt together. We provide holes in the bed sides for fender installation.
- Bed sides can be ordered with or without the stake pocket hole, which is the large square hole in the top of the side above the stake pocket.
- Bed sides are also available with or without the chain latch for custom applications.
- Bed sides ship by Motor Freight and must be prepaid.

BED SIDES FOR CHEVY CAMEO/GMC SUBURBAN

MAR-K™ makes the inner steel bed sides for Cameo and Suburban trucks. These trucks have an outer, fiberglass shell, not available from MAR-K™.

BED SIDE UPGRADES

MAR-K™ now offers ways to customize your GM Stepside and Ford Flareside bed sides. Upgrades allow you to change the way a bed side is made to better fit your needs. Eliminate the latch on your bed sides or give yourself shiny stainless angles. Whatever you choose, you can have bed sides "your way" at MAR-K™! Be sure to mention the upgrade part number for EACH bed side when ordering parts.

You need to order two (2) of each upgrade for a pair of bed sides. Allow additional time for delivery. Custom parts are not returnable. Ford Flareside Upgrades are found on page 50.

BED SIDE INNER REPAIR PANELS

- Available for GM short bed (shown) and long bed fleetside trucks.
- These go in front of and behind the wheel well to repair the rusted or damaged inner wall of the fleetside bed sides.
- Holes are punched for attachment to the wheel tubs and the wood bed.
- The top is embossed with an offset for ease of welding and placement of panels.
- These panels are made of 16-gage electro-galvanized steel.
- Made by MAR-K™ in Oklahoma City, USA.
- Includes complete instructions.

FLEETSIDE REPAIR PANELS FOR GM

The top of MAR-K's™ Fleetside Repair Panels is embossed with an offset using this CNC press brake.

WHEELHOUSE REPAIR FLANGE FOR 58-66 GM

- This flange for the 58-59 GM Fleetside and 60-66 GM Fleetside trucks is used to repair the rusted or damaged area of the wheel tub where it meets the wood floor.

- 16-gage electro-galvanized steel flange has bed strip embossment like original.
- Requires 2 flanges per truck.
- Instructions included.
- Made by MAR-K™ in Oklahoma City, USA.

GM Fleetside

100585	58-59 GM FLEETSIDE	\$50.00 ea
100586	60-66 GM FLEETSIDE	50.00 ea

Tech Tip for Wheelhouse Repair Flange: This part is to repair the wheel tub flange where it meets the wood floor. These areas are prone to rusting because of the wood holding moisture and the steel flange resting on the wood floor. This repair flange may be used to completely replace this flange or be used in pieces to repair this area.

Tech Tip for Inner Repair Panels: These replacement panels extend from the front bed panel to the wheelhouse opening and from the rear stake pocket to the wheelhouse opening. They will replace the sheet metal from the lower flange with holes to the top of the wheelhouse opening on the bed side. Experienced installers may choose not to use the entire replacement panel if it is not needed, but the instructions show the entire panel being used. We strongly advise you to read the instructions thoroughly and understand that cutting and welding are involved before proceeding.
