BED WOOD KITS

Include bed wood boards with mounting holes; bed strips; and the bolts, nuts, washers and lockwashers (including angle strip bolts) needed to install the wood and strips. Choose from a wide variety of different wood/metal combinations to suit your style! For our oak kits, we select and machine oak bed wood from the finest quality Appalachian red oak lumber (show quality). The polished bed strips are precision roll formed and polished to a mirror finish in our own manufacturing shop. The oak/polished stainless kit includes brightly polished stainless bolts and offset washers. Or, select hidden mounting holes in the oak wood, with polished stainless or your choice of three types of anodized aluminum bed strips with hidden fasteners, and the bed-to-frame and angle strip bolts are included. For daily driver use, choose our southern yellow pine wood with steel bed strips and zinc plated bolts to be painted before installation like the originals. MAR-K now offers exotic wood! See pages 16 and 17 for a full listing.
